Re: Notification of Regulated Waste Activity  
EOG Disposal, Inc.  
EPA ID# WID988580056

To Whom It May Concern:

Pursuant to Chapter NR625.08(2)(h) Wisconsin Administrative Code, EOG Disposal Inc. is providing a subsequent notification of hazardous waste activities as a marketer of hazardous waste fuels. This notification is a result of a recycling exemption application to the WIDNR. EOG operates a solid waste transfer and processing facility and is licensed by the WIDNR for processing and transferring of solid waste. On March 15, 1994 EOG was granted Interim License Approval by the WIDNR for the storage of hazardous waste. EOG is also a licensed hazardous waste transporter.

We trust this notification satisfies the requirements of Chapter NR625.08(2)(h), Wisconsin Administrative Code.

If you have any questions regarding this notification please contact me.

Sincerely,  
EOG Disposal, Inc.

Kandylee Schmit  
Marketing Analyst

Re: Notification of Regulated Waste Activity

To Whom It May Concern:

Pursuant to Chapter NR600.05(2), Wisconsin Administrative Code, EOG Disposal Inc. is providing a notification of regulated waste activity as a storer of hazardous waste. EOG operates a solid waste transfer and processing facility and is licensed by the WDNR for processing and transferring of solid waste. On March 15, 1994 EOG was granted Interim License Approval by the WDNR for the storage of hazardous waste. EOG is also a licensed hazardous waste transporter.

This notification is submitted in order to inform the EPA and Wisconsin DNR that EOG Disposal, Incorporated intends to utilize part of its facility as a transfer facility.

If you have any questions regarding this notification, please contact me at (414) 353-1156.

Sincerely,  
EOG Disposal, Inc.

## X. Certification

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

SUMMARY

Mary,

Can Chgs Be Made?

As per your Note it does not indicate if Chgs Can Be Made or not only that this is a TSD!

9/20

Mary,

According to notes on this notif. form WDNR says this is a TSD, but there is no TSD indicator in RCRIS. Can you resolve this? Thanks.

Sharon

ACTION REQUIRED

This is a TSD per Wisconsin DNR as I had noted previously. approximate changes can be made. 9-20-94 M.V. ✓

Re: Notification of Hazardous Fuel Marketing Activities  
EOG Disposal, Inc.  
EPA I.D. #WID988580056

To Whom It May Concern:

Pursuant to Chapter NR625.07(6)(b), Wisconsin Administrative Code, EOG Disposal, Inc. (EOG) is providing notification of hazardous fuel activities as a marketer of hazardous waste fuels. This notification is a result of the March 15, 1994 Interim License Approval granted by the Wisconsin Department of Natural Resources (WDNR) for the storage of hazardous waste.

EOG operates a solid waste transfer and processing facility and is licensed by the WDNR for processing and transferring of solid waste. The waste materials received at EOG are generated by industry, commercial establishments, small businesses, educational facilities, and other institutions. The activities conducted at the facility are based on the objective of redirecting materials from waste streams for the purpose of beneficial use, including fuels for re-refining and fuel blending. EOG is authorized to accept six categories of waste under their existing solid waste permit. These include off-specification and used chemical products, oils, coolants, cleaning solutions, wastewater and paints.

As a result of Wisconsin's incorporation of the Toxic Characteristic Leaching Procedure (TCLP) requirements, some of the nonhazardous waste streams previously handled by EOG are now classified as hazardous waste. For EOG to continue to handle these waste types, an interim status license was applied for and obtained for hazardous waste storage. Some materials, such as used oil destined for burning, is exempt from federal hazardous waste regulation but under Wisconsin law is subject to hazardous waste regulations. The interim status storage license is limited to materials that EOG was authorized to accept prior to the promulgation of the TCLP regulations, materials which are hazardous waste only because of the implementation of the TCLP regulations, and materials that are not considered to be hazardous waste by the federal government but are considered to be hazardous waste by Wisconsin.

USEPA Region 5  
April 19, 1994  
Page Two

Waste codes EOG is eligible to accept include: D012 Endrin; D013 Lindane; D014 Methoxychlor; D015 Toxaphene; D016 2,4D; D018 Benzene; D019 Carbon Tetrachloride; D020 Chlordane; D021 Chlorobenzene; D022 Chloroform; D023 o-Cresol; D024 m-Cresol; D025 p-Cresol; D026 Cresol; D027 1,4-Dichlorobenzene; D028 1,2-Dichloroethane; D029 1,1-Dichloroethylene; D030 2,4-Dinitrotoluene; D032 Hexachlorobenzene; D033 Hexachlorobutadiene; D034 Hexachloroethane; D035 Methyl Ethyl Ketone; D036 Nitrobenzene; D037 Pentachlorophenol; D038 Pyridine; D039 Tetrachloroethylene; D040 Trichloroethylene; D041 2,4,5-Trichlorophenol; D042 2,4,6-Trichlorophenol; and D043 Vinyl Chloride.

We trust this notification satisfies the requirements of Chapter NR625.07(6)(b), Wisconsin Administrative Code. If you have any questions regarding this notification, please contact me at (414) 353-1156.

Sincerely,

EOG DISPOSAL, INC.

## VIII. Type of Regulated Waste Activity (Mark 'X' in the appropriate boxes. Refer to instructions.)

## A. Hazardous Waste Activity

1. Generator (See instructions) ☒ 3. Treater, Storer, Disposer (at installation)  
Note: A permit is required for this activity; see instructions.
- ☒ a. Greater than 1000kg/mo (2,200 lbs.)  
☐ b. 100 to 1000 kg/mo (220 - 2,200 lbs.)  
☐ c. Less than 100 kg/mo (220 lbs.)
2. Transporter (Indicate Mode in boxes 1-5 below) ☒ 4. Hazardous Waste Fuel  
Note: A permit is required for this activity; see instructions.
- ☒ a. For own waste only  
☒ b. For commercial purposes
- Mode of Transportation
- ☐ 1. Air  
☒ 2. Rail  
☒ 3. Highway  
☐ 4. Water  
☐ 5. Other - specify Add 233-7
- ☐ a. Generator Marketing to Burner  
☒ b. Other Marketers  
☐ c. Burner - indicate device(s) - Type of Combustion Device
- ☐ 1. Utility Boiler  
☐ 2. Industrial Boiler  
☐ 3. Industrial Furnace  
☐ 5. Underground Injection Control

## B. Used Oil Fuel Activities

1. Off-Specification Used Oil Fuel  
☒ a. Generator Marketing to Burner  
☒ b. Other Marketer  
☐ c. Burner - indicate device(s) - Type of Combustion Device
- ☐ 1. Utility Boiler  
☐ 2. Industrial Boiler  
☐ 3. Industrial Furnace
- ☒ 2. Specification Used Oil Fuel Marketer (or On-site Burner) Who First Claims the Oil Meets the Specification

## IX. Description of Regulated Wastes (Use additional sheets if necessary)

A. Characteristics of Nonlisted Hazardous Wastes. Mark 'X' in the boxes corresponding to the characteristics of nonlisted hazardous wastes your installation handles. (See 40 CFR Parts 261.20 - 261.24)

1. Ignitable (D001) ☒ 2. Corrosive (D002) ☒ 3. Reactive (D003) ☒ 4. Toxic Characteristic (TC) (D000) ☒ (List specific EPA hazardous waste number(s) for the TC contaminant(s))
- D 0 0 4 D 0 0 5 D 0 0 6 D 0 0 7

B. Listed Hazardous Wastes. (See 40 CFR 261.31 - 33. See instructions if you need to list more than 12 waste codes.)

1 F 0 0 1	2 F 0 0 2	3 F 0 0 3	4 F 0 0 4	5 F 0 0 5	6 F 0 0 6
7 F 0 1 9	8 F 0 0 7	9 F 0 0 8	10 F 0 0 9	11 F 0 1 0	12 F 0 1 1

C. Other Wastes. (State or other wastes requiring an I.D. number. See instructions.)

1	2	3	4	5	6

## X. Certification

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment.

TOXIC CHARACTERISTIC NOTIFIER

The Toxic Characteristic Rule, promulgated on March 29, 1990, redefines the characteristic of toxicity under RCRA. Your notification indicates that you are handling waste with toxic characteristics. In order for EPA to process your notification in a timely manner, we need the following information:

- ☐ I am a new notifier under the Toxic Characteristic Rule.

Please list the specific four-character EPA hazardous waste codes which pertain to you. For guidelines on determining the correct four-character code, see 40 Code of Federal Regulations 261.30-33. Some of the Toxic Characteristic Constituents are printed on the reverse of this form.

--	--	--	--

--	--	--	--

--	--	--	--

--	--	--	--

- ☐ I have marked TOXIC by error. I have attached a corrected Notification. I may make comments in the area below.

- ☒ I am a subsequent notifier whose activity is changing under the TC Rule. I have enclosed a Notification of Regulated Waste Activity (form 8700-12).

You can assist us by specifying what changes are to be made to our records (i.e. adding waste codes, change in waste activity, new contact person, etc.).

*If there are no changes, you are NOT REQUIRED TO NOTIFY.*

New Mailing Address, New Contact Person, Adding Waste Codes.

Note: The deadline for notifying the EPA of your waste activity under TC has already passed. Your prompt attention to this matter is required.

COMPLETE IN FULL and submit your Notification along with this letter to:

Sincerely,

*Sharon Kiddon*  
Sharon Kiddon

Dear Notifier:

Enclosed you will find the U.S. Environmental Protection Agency (U.S. EPA) Identification (ID) number that has been assigned to your installation. This ID number must appear on all manifest forms when transporting hazardous waste. You will find your ID number on the second line of the copy of the enclosed notification form. This letter confirms that you have filed a Notification of Hazardous Waste Activity (form 8700-12) to comply with Section 3010 of the Resources Conservation and Recovery Act (RCRA). This letter and the enclosed copy of the notification form should be retained for future use.

If your facility is in the state of Michigan and you were previously issued an ID number with an MIG prefix, do not use the MIG number. This is a state number. Be sure to use the MID number only.

If you have any further questions regarding hazardous waste activity, please contact the Region V Solid Waste Hotline at (312) 886-4001.

Sincerely,

  
Arthur S. Kawatachi

### HAZARDOUS WASTE FACILITY INTERIM LICENSE

RECEIVED  
MAR 18 1994

#### AUTHORIZED CONTACT

Mr. Michael Villione, President  
EOG Disposal, Incorporated  
5611 West Hemlock Street  
Milwaukee, Wisconsin 53223

U.S. EPA ID #: WID 988580056

DATE ISSUED: March 15, 1994

TYPE OF FACILITY: HAZARDOUS WASTE  
CONTAINER STORAGE INTERIM LICENSE

OFFICE OF RCRA  
WASTE MANAGEMENT DIVISION  
EPA REGION V

LICENSEE: EOG Disposal, Incorporated

NAME OF FACILITY: EOG Disposal, Incorporated

LOCATION OF FACILITY: SW 1/4 of SW 1/4, Section 14, Town 8N, Range 21E,  
Milwaukee County, 5611 West Hemlock Street, Milwaukee, Wisconsin

FID #: 241384000

#### MAXIMUM INTERIM LICENSE STORAGE CAPACITY:

CONTAINER STORAGE: Maximum capacity of 720 fifty-five gallon containers in the layout presented in the interim license application. Approved waste codes: D012 Endrin; D013 Lindane; D014 Methoxychlor; D015 Toxaphene; D016 2,4-D; D018 Benzene; D019 Carbon Tetrachloride; D020 Chlordane; D021 Chlorobenzene; D022 Chloroform; D023 o-Cresol; D024 m-Cresol; D025 p-Cresol; D026 Cresol; D027 1,4-Dichlorobenzene; D028 1,2-Dichloroethane; D029 1,1-Dichloroethylene; D030 2,4-Dinitrotoluene; D032 Hexachlorobenzene; D033 Hexachlorobutadiene; D034 Hexachloroethane; D035 Methyl Ethyl Ketone; D036 Nitrobenzene; D037 Pentachlorophenol; D038 Pyridine; D039 Tetrachloroethylene; D040 Trichloroethylene; D041 2,4,5-Trichlorophenol; D042 2,4,6-Trichlorophenol; and D043 Vinyl Chloride

THIS INTERIM LICENSE IS SUBJECT TO AND CONDITIONED UPON COMPLIANCE WITH THE LICENSEE'S INTERIM LICENSE DETERMINATION DATED MARCH 15, 1994, AND ALL SUBSEQUENT PLAN MODIFICATIONS.

THIS LICENSE AUTHORIZES THE LICENSEE TO OPERATE THE HAZARDOUS WASTE FACILITY DESCRIBED ABOVE. THIS LICENSE IS SUBJECT TO AND CONDITIONED UPON COMPLIANCE WITH THE PROVISIONS OF CHAPTER 144; WISCONSIN STATUTES; CHAPTERS NR 600 TO NR 685, WISCONSIN ADMINISTRATIVE CODE; ANY PLAN APPROVAL AND MODIFICATIONS THEREOF; ANY SPECIAL ORDER AND MODIFICATIONS THEREOF ISSUED BY THE DEPARTMENT AND THE ATTACHED CONDITIONS. ANY EXEMPTIONS FROM THE REQUIREMENTS OF CHAPTERS NR 600 TO NR 685, WISCONSIN ADMINISTRATIVE CODE, ISSUED FOR THIS FACILITY ARE LISTED ABOVE. THIS LICENSE DOES NOT RELIEVE THE LICENSEE OF THE LEGAL OBLIGATION TO MEET ALL OTHER STATE, FEDERAL AND LOCAL PERMIT, ZONING AND REGULATORY REQUIREMENTS.

Subject: Interim License Application Notice of Incompleteness  
EOG Disposal, Inc. 5611 West Hemlock Street, Milwaukee, WI  
WID 988580056

Dear Mr. Villione:

The Department has reviewed the revised March 1993 interim license application entitled, "Application for an Interim License to Store Hazardous Waste", for EOG Disposal, Inc. (EOG) located at 5611 West Hemlock Street, Milwaukee, Wisconsin. The information was received at the Southeast District on March 8, 1993. The report was prepared by RMT, Inc., of Madison, Wisconsin. The Department has reviewed the interim license application for completeness and technical adequacy and determined that it does not contain the minimum information required pursuant to ss. NR 680.21 and 680.22, Wisconsin Administrative Code, and is, therefore, incomplete and technically inadequate. With this letter, I will first try to clarify what is eligible for an interim license with regard to the Toxicity Characteristic (TC) rule and then review the points of incompleteness and technical inadequacy.

I first want to clarify what the Department concludes EOG is requesting an interim license for and what the Department believes is eligible for an interim license in this situation. EOG was not eligible for an interim status for the TC rule from the federal government because their PART A application was not submitted within the required time frame. However, because some materials are considered solid waste by the state of Wisconsin, but are not considered solid wastes by the federal government, these materials:

1. would not have been affected by the federal implementation of the TC rule,
2. would only have become hazardous waste because of the state of Wisconsin's implementation of the TC rule, and
3. would be eligible for an interim license from the state even though they did not receive interim status from the federal government.

EOG submitted a revised PART A application on December 1, 1992 which was within three months of the original effective date of the state's TC rule, September 1, 1992, which first rendered EOG subject to the requirement to obtain an operating license in accordance with s. NR 680.20, Wisconsin Administrative Code, and is therefore eligible for an interim license from the state.

For a waste stream to be eligible for an interim license because of the state implementation of the TC rule, the waste stream has to satisfy the following parameters:

1. the waste stream was handled by EOG before the promulgation of the state TC rule, and
2. the material would be considered a solid waste by the state of WI, but would not meet the federal definition of a solid waste, and
3. the waste stream is a hazardous waste only because of the TC waste codes, and would not have been a hazardous waste because of the previous EP toxicity requirements.

Table 1 of the March 8, 1993 revised interim status submittal provides useful information regarding the various waste streams that EOG handles. Using that as a starting point, the Department would like EOG to specify which of these waste streams EOG is requesting to be covered by an interim license. For the waste streams that EOG is requesting an interim license, the Department would like to see a justification from EOG as to how each of the waste streams satisfies the above three parameters required for eligibility for an interim license.

EOG's recycling and fuel blending activities may be exempt from the hazardous waste licensing requirements as they are part of hazardous waste fuel marketing activities, but there are specific requirements which EOG will need to comply with in order to operate these activities. The Department at this time requests that EOG submit to the Department a submittal which explains their activities as a marketer of hazardous waste fuel and how they comply with the requirements of s. NR 625.07, Wisconsin Administrative Code.

The following information must be submitted within 30 days of the date of this letter in order for the interim license application to be complete and technically adequate. EOG can submit revised pages to the interim license application rather than submit an additional revised interim license application.

1. EOG shall specify which of the waste streams listed in Table 1 of the March 8, 1993 interim license application they are requesting to be covered by an interim license.
2. For each of the waste streams EOG is requesting an interim license for, EOG shall submit to the Department justification as to how each of those waste streams satisfies the above three parameters required for eligibility for an interim license in this situation.

3. EOG shall specifically state what will be the aisle space between containers.
4. EOG shall state how containers will be accessed and removed during a spill or emergency.
5. EOG shall document that the local fire department finds that the container storage arrangement is adequate for handling an emergency at the site.
6. EOG shall explain how long waste will be kept on site before the analysis is completed and the manifest is signed off on.
7. EOG shall explain how they comply with the general site selection requirements of s. NR 630.18, Wisconsin Administrative Code.
8. EOG shall provide in the contingency plan documentation of contacts and agreements with the local police department, the fire department, hospitals, contractors and emergency response teams to coordinate emergency services. s. NR 630.22(1)(e)7, Wisconsin Administrative Code.
9. In accordance with s. NR 630.22(1)(c), Wisconsin Administrative Code, EOG shall explain in the contingency plan that when the facility is active an emergency coordinator will always be on site.
10. EOG shall incorporate into the contingency plan a description of the type of wastes handled and their associated hazards. s. NR 630.22(1)(e)2, Wisconsin Administrative Code.
11. EOG shall provide in the contingency plan a description of the procedures that will be used to notify the local police department, the fire department, hospitals and emergency response teams. s. NR 630.22(1)(e)5.
12. EOG shall point out in the contingency plan the emergency coordinator's need to monitor for leaks, pressure buildup, gas generation or ruptures in valves pipes or other equipment if the facility stops operation in response to a fire, explosion or discharge. s. NR 630.22(2)(a)7, Wisconsin Administrative Code.
13. If EOG's closure cost estimates do not follow the requirements in s. NR 685.07(3), Wisconsin Administrative Code, they shall be corrected.
14. EOG shall explain how they will be in compliance with the general storage standards in ss. NR 640.11(1), 640.12(1), 640.13(2) and (3), 640.15(2), and 640.16(2), Wisconsin Administrative Code.
15. EOG shall explain how they will be in compliance with the container storage standards in ss. NR 640.09, 640.11(2) and (3), 640.14, 640.15(1)(2)(a) and (b), and 640.10, Wisconsin Administrative Code.

16. EOG shall provide a legal description of the site.
17. EOG shall identify potentially incompatible materials that could be handled on site.
18. EOG shall submit to the Department a submittal which explains their activities as a marketer of hazardous waste fuel and how they comply with the requirements of s. NR 625.07, Wisconsin Administrative Code.

Please provide four copies of all information to be submitted to the Department in response to this letter. Your response shall include a cover letter responding to each of the deficiencies noted above along with necessary inserts to the interim license application report. Revised pages shall be clearly identified as revisions and properly dated. Two copies should be mailed to Barbara Zellmer - SW/3, Bureau of Solid and Hazardous Waste Management, P.O. Box 7921, Madison, Wisconsin, 53707, and two copies to Patrick Brady, DNR Southeast District, P.O. Box 12436, Milwaukee, Wisconsin, 53212.

This letter is not a denial of the interim license application, but merely indicated that the Department has not received the minimum information as required by chs. NR 600 through 685, Wisconsin Administrative Code.

If you believe you have the right to challenge this decision, you should know that Wisconsin Statutes and administrative rules establish time periods within which requests to review Department decisions must be filed.

For judicial review of the decision pursuant to ss. 227.52 and 227.53, Wisconsin Statutes, you have 30 days after the decision is mailed, or otherwise served by the Department, to file your petition to the appropriate Circuit Court and serve the petition on the respondent, the Department of Natural Resources.

This notice is provided pursuant to s. 227.48(2), Wisconsin Statutes.

Please contact me at 414/961-2717, if you have any comments or questions.

Sincerely,

Patrick Brady  
Waste Management Engineer  
Southeast District

Mr. Michael Vilione, President  
EOG Disposal, Inc.  
5611 West Hemlock Street  
Milwaukee, WI 53223

SUBJECT: EOG Disposal, Inc.  
WID 988580056  
Acknowledgement of Receipt &  
Notice of Incompleteness for an  
Interim License Application

Dear Mr. Vilione:

This letter acknowledges receipt of an interim license application entitled "Application for an Interim License to Treat and Store Hazardous Waste" for EOG Disposal, Inc. located at 5611 West Hemlock Street, Milwaukee Wisconsin. The EPA ID number for this facility is WID 988580056. The information was received by the Southeast District Headquarters on December 1, 1992. It was prepared by RMT, Inc. and has been reviewed for completeness by the Department.

In accordance with procedures detailed in s. NR 680.24, Wisconsin Administrative Code and the requests made by the Department at the November 2, 1992 meeting, the Department has reviewed the "Interim Status (License) Application" for completeness and has determined that it does not contain the minimum information required pursuant to ss. NR 680.21 and NR 680.22, Wisconsin Administrative Code, and is, therefore, incomplete.

EOG Disposal's eligibility for an interim license is based on the effect of the adoption of the Toxicity Characteristic (TC) rule. Some of the solid wastes managed at the site are now classified as hazardous waste because of the adoption of the TC rule. The interim license application can only address those wastes which were solid wastes before the implementation of the TC rule and are now hazardous waste because of the TC rule. Management of wastes (treatment and storage in specific units) can only be included on the interim license if the following apply: the unit existed at the facility at the time of the effective date of the rule; if required, the unit had solid waste management approval; and the unit would require a hazardous waste operating license. The effective date of the TC rule in Wisconsin was 9-1-92. Any treatment and storage of hazardous waste outside of the interim license

Printed on  
Recycled  
Paper

conditions would need to be applied for as part of a request for an operating license.

The Department does not understand the connection between the TC rule and the inclusion of the waste codes D001 (ignitability), D003 (corrosivity), and F001 to F005 (solvents) and would like EOG Disposal to explain their inclusion and why these waste codes would not have been covered in the past. In addition, the Department will need EOG Disposal to clarify that each of the waste streams managed at the facility which are hazardous waste under the TC rule for waste codes D004 through D017 (metals and pesticides) were not hazardous waste under the EP Toxicity rule.

The Department believes that management of solid waste at the facility presently consists of storage and treatment in 1500 containers (55 gallon drums) and bulk storage of 20 cubic yards of batteries, 20 cubic yards of scrap metal, 20 cubic yards of non-metal solids, 20 cubic yards of bulk solids, and 40 cubic yards of reusable empty drums. The interim license can only address bulk storage in units which were approved under the solid waste management section and that contain waste streams that were affected by the TC rule. Since the two 8000 gallon tanks mentioned in the report are not approved as solid waste management units, and are not, to the best of the Department's knowledge, in place; these units would not be eligible for an interim license.

Since exempt hazardous waste recycling activities, in and of themselves, would not require a hazardous waste operating license, they would not be eligible for an interim license. However, except for legitimate recovery and reclamation, exempt hazardous waste recycling activities do require a written approval from the Department. For activities identified in the application that EOG Disposal is claiming to conduct under s. NR 625.08, Wisconsin Administrative Code, EOG Disposal must submit a written recycling exemption request to the Department and receive a written approval from the Department. For activities covered under s. NR 625.07(6), Wisconsin Administrative Code, EOG Disposal must comply with the requirements of that section which include notifying the Department. For activities covered under s. NR 625.06, Wisconsin Administrative Code, EOG Disposal must comply with the requirements of that section. The Department requests that EOG Disposal go over each possible recycling activity with the Department to receive concurrence as to what the applicable regulations are for that activity.

The Department has received a check in the amount of \$500 to cover the interim license report plan review fee noted in s. 680.45 (Table XII), Wisconsin Administrative Code. Since the interim license report plan review fee is \$500 per activity, EOG Disposal needs to submit \$500 per each activity which in this case includes storage in tanks, storage in containers and miscellaneous treatment units. That would amount to \$1500 total in interim license plan report review fees. In addition, interim license applications for commercial storage in tanks and containers, and treatment in miscellaneous units require fees of \$4000 each. These are one-time only fees to cover the interim license period until a final determination on issuance of an operating license is made by the Department. So to cover all of the above fees, EOG Disposal will need

to submit an additional check for \$13,000. The fees above are based on the activities for which EOG Disposal requested an interim license in their application. With revisions to EOG Disposal's interim license application concerning the activities EOG Disposal requests to have interim licensed, the above fees would change accordingly.

The following information must be submitted within 30 days from the date of this letter in order for the interim license application to be complete:

1. EOG Disposal shall review their operations and determine what activities are appropriate for an interim license application and submit appropriate revisions to the application.
2. EOG Disposal shall list and clearly explain in detail each waste handling operation at the facility which includes: storage, recycling, waste mixing, and treatment. EOG Disposal shall also provide the starting date of each operation, EOG Disposal's interpretation and justification as to how these operations should be classified and what regulations apply to them, whether the operation was regulated by the solid waste management section, whether EOG Disposal had approval from the solid waste section for the operation and if the operation handles TC rule wastes.
3. EOG Disposal shall provide a history of waste streams managed at the facility; the methods used to determine whether or not the waste stream was a hazardous waste (including whether or not a test was run for EP Toxicity); the processing, treatment or recycling performed on the waste stream; and whether the waste stream is hazardous under the TC rule.
4. Even though the activities associated with the hazardous waste closure are very similar to the activities associated with the solid waste closure, separate closure cost estimates and proofs of financial responsibility will need to be maintained. EOG Disposal will need to maintain a separate hazardous waste closure proof of financial responsibility.
5. Storage of bulk containers of scrap metal and reusable empty drums are not affected by the TC rule. EOG Disposal's solid waste management approval only allows for outside storage in bulk containers of scrap metal and reusable empty drums. Solid waste management approvals restrict all other bulk container storage to inside the building. Therefore, under a hazardous waste interim license, storage in bulk containers would be restricted to inside the building.
6. Section 1.2 of the interim license application states, "The storage will be conducted incidental to the exempt waste recycling activities". EOG Disposal shall explain what is meant by that statement.
7. EOG Disposal shall submit to the Department a copy of the original Part A that was sent to EPA.

8. EOG Disposal shall submit an additional check for \$13,000, (or other value appropriate to any revisions to the interim license application), which is required to cover the interim license report and application fees.

The Department has additional concerns which need to be adequately addressed before the interim license is issued. These issues are not items of incompleteness; rather, they are technical inadequacies that you should address now to expedite the review process.

1. EOG Disposal shall show what type of mechanism they will use for updating the closure proof mechanism.
2. EOG Disposal shall show proof to the Department on how they comply with the liability requirements in s. NR 685.08, Wisconsin Administrative Code.
3. The interim license submittal needs more specific detail in regards to descriptions of the waste managing operations at the facility including drawings of the waste managing areas.
4. Site security will have to be explained in more detail for the Department to approve the interim license application.
5. A flow chart showing the analyses performed on the various wastes managed at the facility shall be submitted. Some verification sampling of wastes will need to be performed on the wastes as they are received on site. EOG Disposal shall explain what procedures would be taken if an unapproved waste stream was accepted on site.
6. If the same units are to be used for managing hazardous waste and solid waste, EOG Disposal shall explain what decontamination procedures will take place.
7. The Department requests that EOG Disposal verify that the locating directions on the pictures with the Part A application are correct.
8. The reference to attachment 3 in section 1.5 of the interim license application should be changed to attachment 4.

Please provide four copies of all information to be submitted to the Department in response to this letter. Your response should include a cover letter responding to each of the deficiencies noted above along with necessary inserts to the interim license application report. Revised pages should be clearly identified as revisions and properly dated. Two copies should be mailed to Barbara Zellmer - SW/3, Bureau of Solid & Hazardous Waste Management, P.O. Box 7921, Madison, Wisconsin, 53707, and two copies to Mr. Patrick Brady, DNR Southeast District, Box 12436, Milwaukee, Wisconsin, 53212.

This letter is not a denial of the interim license application, but merely indicates that the Department has not received the minimum information as required by chs. NR 600 through 685, Wisconsin Administrative Code.

If you believe that you have a right to challenge this decision, you should know that Wisconsin Statutes and administrative rules establish time periods within which requests to review Department decisions must be filed.

For judicial review of a decision pursuant to Sections 227.52 and 227.53, Stats., you have 30 days after the decision is mailed, or otherwise served by the Department, to file your petition with the appropriate Circuit Court and serve the petition on the respondent, the Department of Natural Resources.

This notice is provided pursuant to Section 227.48(2), Statutes.

Please contact me at 414/961-2717, if you have any comments or questions.

Sincerely,

Patrick Brady  
Waste Management Engineer
